

Armada Steel Shell Brake Drums

Introducing the PF8018X, the Armada Steel Shell Brake drum. Despite maintaining the drum size and load rating as cast drum equivalents, the steel PF8018X boasts a 15-20% lighter weight per drum.

Features:

- Precision Balancing Provides a Smooth Ride
- Precision Formed High Carbon Steel Shell
- Exceptional Drum Strength
- Lighter Weight Maximizes Fleet Payloads
- Axle Load Retains a 24,000 lbs. Rating
