- Flex design to help prevent cocked seals
- Steel top plate to protect seal from impact
- Wider ID & OD for greater contact coverage
- Free tube of seal bond in every box
- Chamfered leading edge to help pilot seal
- More internal sealing points
- Seal lips run on a polished surface
- Packaged for longer shelf life

Why RevMax is Right For You

1. Installed by any method of your choosing
2. Unique Flex Design helps prevent cocked seals
3. FREE Tube of Seal Bond in every box
4. Heavier Construction with Wider O.D. and Wider I.D.

HNBR – Premium Seal

**3 Year Warranty with
Brake Coverage**

If the Rev Max seal leaks within the first 3 years, RevHD will cover the seal along with the cost of the customer's next Brake Kit!

Warranty Can Extend to Brakes!

For the 3-year warranty to extend to brakes, shop technicians just need to pass RevHD's online wheel-end training course
